American Troops Mass Along Mexican Border; Seven Thousand Ready

Infantry, Cavalry, Artillery, Air Service
Will Protect American Interests Should
Battle Affect U. S. Property

San Antonio, Tex., April 11.—In-
fantry, cavalry and field artillery
are taking the field today along
the New Mexico and Arizona bor-
ders to protect American interests
where American and Mexican towns
are close to each other in the zone
of the revolution.

Col. Robert McCleave, chief of
staff of the eighth corps area, sta-
tioned here, under authority of
Gen. L. H. Lassiter, ordered the fol-
lowing units into service:

One regiment of infantry from
Fort D. A. Russell to Bisbee, Ariz.;
one battalion of field artillery and
troops of cavalry from Fort Bliss to
Hatch, N. M.

Colonel McCleave said "the weight
of the conflicting forces in Sonora"
had aggravated the problem of pro-
tection to American interests.

Washington, April 11.—With the
dispatch of 1,500 more American
troops to Mexican border stations,
there are now about 7,000 soldiers

MEXICAN PLANE CRASH CLAIMS LIVES OF FIVE

Four Americans Die As
Air Liner's Motor
Goes Dead

Tampico, Mex., April 11.—The
bodies of five persons, four of them
Americans, victims of the most dis-
astrous air tragedy in Mexico since
the expansion of commercial air
service between Mexico City and
Brownsville, Tex., lay here today
awaiting word from relatives.

The crash occurred when the mo-
tor of a Mexican aviation company
plane balked shortly after taking
off from here. The pilot attempted
to glide to the field but lacked suf-
ficient altitude. The plane went in-
to a sideslip and fell from a height
of 100 feet. It was found from Mex-
ico City to Brownsville.

Among the victims was Garret
Frazier, a New York prominent in
engineering circles. He was flying
from Mexico City, where he had vis-
ited his fiancée, Miss Grace Parkin-
son, Miss Parkinson has been in
Mexico for some time but comes
from Houston, Texas. Frazier was
employed by the Mineral Products
company, of New York. He superin-
tended the construction of the in-
ternational bridge across the Rio
Grande from Brownsville to Mata-
moros.

The others who died were Dennis
W. Taylor, pilot, Blaine Newcomb,
co-pilot, both of Brownsville, J.
Robinson, of Brownsville, and J.
Fernandez, of Mexico City. Taylor
and Newcomb formerly were em-
ployed as pilots by the Ford Motor
company of Detroit.

"MYSTERY" TRIP FOR LINDBERGH

Camping Equipment Has
Been Used Recently,
Observer Says

St. Louis, April 11.—Airport of-
ficials scanned the skies here today
in the belief that Col. Charles A.
Lindbergh would make this city a
"port of call" on his mysterious
flight eastward from Mexico City.

Lindbergh promptly "lost" himself
again yesterday when he hopped off
from Brownsville, Texas, where he
revealed himself to an anxious
world after being many hours over-
due.

Where he had spent his first
night out of Mexico City, he said,
was "a matter that concerns my-
self alone." He expressed regret,
however, that army fliers had been
put to the trouble of starting a
search for him.

The lone eagle arrived at Brown-
sville with camping equipment which
showed evidence of recent use. Re-
fusing to reveal his destination and
telling his friends not to worry if
he was missing for two or three
days, he hopped off again and "dis-
appeared" in the eastern horizon.

Pre-War Bonded "Stuff" All "Apple Sauce," Buyer Says

"Gyp-artists" working in Salem
and vicinity, apparently have taken
advantage of the unquenched thirst
of residents of this city for "pre-
war stuff."

One Salem man, Wednesday af-
ternoon, called police authorities in
investigation of a fraud that had de-
stroyed his finances to the extent
of \$200 when, in purchasing what
he thought were two cases of pre-
war bonded, he received only one
case and a half of beautiful ap-
ples.

An order had been placed by the
man for the two cases several weeks
ago. The police investigation showed,
and Tuesday, two men called at his
home to deliver his "goods."

REBELS DRIVEN TO BORDER OF UNITED STATES

Lose Hold On Seaports;
Federal Army Is
Closing In

JUAREZ BACK IN
FEDERAL CONTROL

Custom House Reopened;
Trade Resumed; Civic
Rule Established

El Paso, Texas, April 11.—Con-
centration of Mexican rebel forces
in a small strip of Sonora lining the
international border, where escape
to the United States will be open,
appeared to be the strategy of revo-
lution leaders today.

Less than a hundred miles of this
border territory is now in control of
the rebels. All seaports have been
closed to them and strong federal
columns are reported closing in from
all sides.

A federal army yesterday occupied
Juarez which was hastily evacuated
by the command of Gen. Marcelo
Caraveo late Tuesday night. A civil
administration was installed and the
customs house reopened. Movement
of exports and imports, held up by
embargo while the rebels held the
town, was resumed.

Gen. Caraveo is reported moving
westward today to join the retreat-
ing command of Gen. Gonzalo Escob-
ar, who marched out of Chihuahua
City three days in advance of Car-
aveo. The state of Chihuahua is now
said to be clear of rebels.

Caraveo and Escobar hope to join
the Sonora forces, commanded by
Gen. Francisco Manzo and Gen.
Fausto Topete. This combined force
is converging on Nogales, Sonora,
opposite Nogales, Ariz., and Agua
Prieta, opposite Douglas, Ariz., the
only border points still held by the
rebels.

Naco Held By Federals
It is approximately 75 miles from
Nogales eastward to Agua Prieta but
between these two points is Naco, a

March Demand In County
Far Below Figures
For February

Lisbon, April 11.—Only 584 auto-
mobile licenses were issued in Col-
umbiana county during March
against a record of 1,221 licenses in
February. The receipts from the
sale of license plates for March
totalled \$5,643.36 against receipts of
\$14,971.60 for the previous month, or
a decrease of \$9,328.24.

Corporations have received a
credit of \$1,938.91 and the state will
receive \$2,663.55 and the county road
repair fund will receive a credit of
\$1,040.90.

Distribution of license plates has
been recorded as follows:
East Liverpool 181 plates \$554.06;

JUDGE DEFENDS CHURCH CHARGE

Jurist Seeks For Sale Of Wedding
Certificates With License;
Explains Status

Columbus, O., April 11.—Denying
charges that funds received through
the sale of engraved marriage cer-
tificates, together with marriage li-
censes, are used to defray campaign
expenses, Probate Judge Homer Z.
Bestwick had today answered a
resolution by the Columbus Presby-
tery, in which it condemned the
charging of "excessive" prices for
marriage licenses.

The engraved certificates, which
sell in Franklin county for \$1.50 are
unnecessary, the judge explained.
Applicants need only the license.

Judge Bestwick denied charges
that persons seeking marriage li-
censes are led to believe the en-
graved certificates must accompany
the licenses.

Several years ago a test case was
brought to the supreme court from
Cincinnati, the judge recalled, and
the practice of selling the certi-
ficates was held legal.

SENATOR STRIKES AT USE OF INTOXICANTS IN NATION'S CAPITAL

South Carolina Legislator Will Introduce Bill To
Prohibit Liquors In Embassies of Foreign Na-

Washington, April 11.—With a
Curtis-Gann social tangle tempo-
rarily solved, the diplomatic corps
faced a new embarrassment today
in a legislative threat to enforce
the American prohibition law
against all foreign representatives
of kings, emperors, potentates and
presidents.

Senator Cole Bleas of South
Carolina, who recently admitted
taking a drink now and then of
privileged liquor, announced he
would introduce a bill at the special
session of congress, compelling all
away from the poor fellow, who does

outdoor work and wants a drop for
his stomach's sake, toward enforce-
ment prohibition on these diplomats,"
said Bleas. "The prohibitionists
have sat idly by and permitted such
outrageous, flagrant and disgraceful
scenes as embassy liquor has caused
in our capital in the last few years."

"These diplomats have made slur-
ring remarks about our laws and it
is time to make them show some re-
spect and obedience to our laws."

"FARM CONTROL" TO

Embers of Dying Session
Fanned to Flame By
Moves

Columbus, April 11.—With the re-
ports that a repeal of the state dry
law would be sought by a group of
liberals in the 1931 election, and
with another so-called "equal rep-
resentation" referendum already un-
der way, politics were catapulted
into the light today, notwithstanding
the fact that the dying general
assembly is now in recess.

Probably encouraged by the re-
cent result of the "wet" vote in the
recent Wisconsin balloting, as a
result of which the Wisconsin dry
law is to be repealed, an organiza-
tion of liberals said to have a
staunch group of supporters in at
least 25 populous Ohio counties, will
wage a fight to repeal the Crabbe
act, the prohibition law of this
state.

The first step in the battle of the
"wets" will be to secure signatures
of two per cent of the Ohio electors
on a petition to repeal the prob-
hibition statute. This petition will
be submitted to the general assem-
bly in 1931, it was forecast, and
failing in enactment, an additional
three per cent of the voters will be
secured to obtain a referendum of
Sen. George H. Bender, "firebrand"
of the upper house legislature, to
obtain for the cities and urban set-
tled counties in the state, what he
terms "equal representation."

sentative in the house, and at times
called "gas tax Sullivan" because
of the fact that he is co-author of
the increased gas tax bill, announced
he would champion the fight on

Towns Destroyed As Winds Sweep Path In State; Floods Menace

Death Figures Near Fifty As Meager Word
Comes From Stricken Area; Red Cross
Prepares to Aid Victims of Storm

Between 40 and 50 lives lost and scores injured is today
believed to be the toll of a series of tornadoes which yester-
day and last night struck various sections of Arkansas.
Telephone and telegraph communication is disrupted in
the northern portion of the state but fragmentary reports
tell of the destruction of several towns and of the removal
of dead and injured to hospitals at Batesville, near Guion,
which was reported partially destroyed.

The towns struck by the tornado
were Sneeds, where 14 are reported
dead; Alicia, 11 killed, according to
reports; three dead at Guion, nearly
50 injured; seven dead at Larado,
and two dead at Parkin.

Two additional dead were reported
from Moorfield, a village near
Guion, by trainmen on the Missouri
Pacific railroad.

Storm Hits County
Lizard county, in which Guion
is located, seems to have been the
first place the storm struck, ac-
cording to reports. The bank at
Guion, a brick building, was reduced
to ruins, as were numerous frame
buildings and residences, according
to reports to Batesville. Intermittent
connection was made with the out-
side world from that point.

In addition to the storm damage,
new dangers threatened the eastern
portion of the devastated district
today. The White and several small-
er rivers have been swollen from
torrential rains and are threatening
to inundate cotton lands near the
Mississippi. Flood stages have been
passed.

The Midwest division of the
American Red Cross at St. Louis
has been asked for aid. Albert
Evans, director of disaster relief, left
St. Louis for the stricken zone and
will establish headquarters in the
area, according to word received at
Batesville.

Five counties were visited by the
tornado, according to reports.
Thousands of volunteer workmen
are being recruited from nearby
towns and are in the area to aid
sufferers.

POPULAR DECISIONS

In ruling that Frank L. Rollins is a duly elected and qualified member of city council, City Solicitor Scott not only cleared up a legal point which has been at issue for more than a year, but he also established an official status for the First ward councilman to which he is justly entitled. The fact that Rollins holds the position of janitor at the Prospect street school might have barred him from his seat in city council had there been objections prior to his qualification for the latter position. Voters of the First ward elected him as their representative and council permitted him to be seated. Legality of legislation passed by the council which required Rollins' vote was the only point that concerned citizens of Salem; Scott's ruling relieves the uncertainty of the situation.

In Rollins city councilmen have an able associate and the city has a representative of sound judgment. On many occasions he has served the city well and his knowledge of public affairs, gained through years of wide experience, has contributed immeasurably to the fine record already made by the present group of city legislators. His ability is generally recognized but even more worthy of praise is his conduct while in office. For a year he has served faithfully without knowing whether he would receive one penny for his services. He has not complained; on the contrary he has denied that he would resign because the auditor withheld his salary, and he kept plugging along with the best interests of the city at heart.

Such public service is deserving of ample praise. Now that his eligibility has been determined by official ruling, the auditor should make haste to pay him for his year's service.

No one will question Mayor Hiddison's judgment in appointing P. J. Dean president of city council to succeed the late Harry A. Gager. Surely he was entitled to advancement from the office of vice-president. Even were that point given no consideration, Dean's appointment would have been popular. Having been a councilman for several years, he is familiar with legislative procedure and has a grasp of council's problems which fits him to be its presiding officer. To follow in the footsteps of a man as well qualified to preside as Mr. Gager is no mean task. If the same quality of leadership is to be maintained, but the Third ward representative may be depended upon to use sound judgment and to give the best that is in him. His record in council justifies that prediction.

What Others Say

SIMPLE WORDS

Is it true that the English language is about to be transformed into a language of short words, spoken with a rapid, staccato utterance? That is the dismal prospect or pleasant—depending on the way one looks at such things—suggested by a noted philologist.

A language which has dispensed with inflection is on the way to "monosyllabism"—a word which goes comfortably far to correct the tendency which it names. Then there is also the subtle influence of slang, which tends always to invent a short, sharp substitute for any word that places the least strain on the tongue and wind; and popular custom inevitably adapts itself to the line of least resistance. Then again, there is the influence of the vernacular, which is becoming more and more potent, thanks to its vivid, picturesque and humorous quality, which so easily disarms resentment of its vulgarity.

It is easier to believe that the tendency toward monosyllabism is stronger in English words than in any other language. Any one who dabbles in verse-making is painfully aware of the difficulty of avoiding these strings of monosyllables which are so fatal to rhythm and cadence.

And yet there may be hope. For whatever may be the syllabic degeneration of their language, the English speaking peoples retain their simple affection for long words. And, after all, the habit of using simple words for simple things isn't all bad.—Bangor Commercial.

FERMENTED MILK AS AN AID TO HEALTH

BY ROYAL S. COPELAND, M. D.
(United States Senator from New York)

Lots of people write to inquire about the use of buttermilk and other acid milks. They want to know if they are good for health.

A few days ago I told about the value of such milk in overcoming the weakness and other disabilities of undernourished babies. Similar good effects may come to the adult who makes use of this food.

I used the word "food" on purpose. Too many persons regard milk merely as a beverage. This is a great mistake. Not only is it a food but it is mankind's chief and most valuable food.

What can I say to impress this on your mind? Everybody should take milk in some form every day of the year. It carries elements of vital importance to your physical welfare. The sooner you realize this and act upon the conviction, the better for you.

But it must be admitted there are some persons who do not handle milk well. The digestive powers are low, or at least unsuited for the digesting of ordinary milk.

In such cases it may well be that some form of acid milk may meet the situation. It is on this account I am writing today.

As I have said about babies, there are human stomachs that do not manufacture sufficient acid to carry on the processes of digestion in satisfactory manner. In consequence, indigestion, distress and undernourishment may result.

It is surprising how the muscles tone and appearance of the skin improve by a change of diet. Merely adding acid to the milk may effect this improvement.

Civilization produces its disadvantages. Our soft food and predigestion of meals tend to weaken the teeth. Decay, abscessed roots and pus gums are all too common. Infections take place and the effects of such infections are felt throughout the body.

One of the evil effects of infection is a lessened supply of the gastric juice. It is decreased in quantity and reduced in quality. This effect, in its turn disturbs digestion and lowers the food value of the things eaten.

Buttermilk has long been recog-

nized as acceptable when other foods have disagreed. It is known in these modern days that the presence of the lactic acid has been responsible for the good effects.

In some countries the milk has been purposely soured. This is true in Oriental lands and in all hot countries. It is impossible with the conveniences they have, to keep the milk sweet. Such races have fermented the supply to make it acceptable as a food as well as to preserve it.

In the process of fermentation the curds are broken into fine particles. In the stomach curds will form, but many times they are too large and hard to be acted upon by the gastric juice, particularly if it is low in acid content.

In the laboratory first and now in the commercial world, artificial produced buttermilk is made. By the addition of lactic acid to the Bacillus bulgaricus, the fermentation is hastened.

The Stars Say—

For Friday, April 12

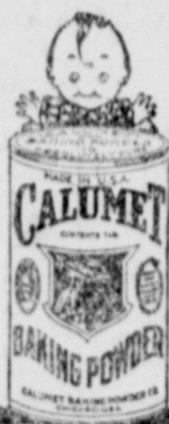

THE sidereal operations for this day seem to hold promise of conflicting conditions. While Jupiter holds prominent position in mutual aspect with Mercury it is likely to be variable and fluctuating in its influence of good fortune, as the latter orb is under affliction. The situation is not improved by the menacing place of Neptune, which points to duplicity, especially as relates to new undertakings. Employment is fairly well aspected, and personal associations may be gratifying.

Those whose birthday it is may expect a year of varying fortunes, with some speculative activities showing gain. But be on guard against fraud and duplicity, especially in new ventures. Personal affairs are satisfactory. A child born on this day may be clever, with a leaning toward taking long chances. It may lean toward expediency or conspiracy to ruin its ends.

SOHIO QUALITY is a PERSONAL TRUST

From bulk storage to service pump
... one man is responsible

MODERN EQUIPMENT and extra refinery care establish the high quality of Standard Oil (Ohio) products. Extra precautions preserve this high quality, from refinery to bulk storage, from bulk storage to service pump.

Each Standard Oil tank wagon or tank truck driver is a vitally important cog in the great machine that brings Sohio and Red Crown to your gasoline tank. For he is made personally responsible for each load he transports from storage tank to service station or dealer.

He fills the truck tanks himself—knows exactly what is in each compartment. His loading report is checked before he leaves the bulk station. He personally closes the fill-dome covers. At the delivery point he himself unloads the truck—making certain that only Sohio goes into Sohio tanks, only Red Crown into Red Crown tanks.

These men take keen pride in the part they play in preserving the extra quality of Standard Oil products. We give them the best modern equipment, to be sure. But even the most perfect mechanical safeguards cannot take the place of this human interest. And these men are typical of the 4500 Ohio men and women devoting their days to the maintenance of the high standards of quality of all Standard Oil of Ohio products.

If you have tried Sohio in your own car you know what the pride these Ohio men and women take in their daily work means to your motor. If not, try it today—learn for yourself that there is a difference in gasoline! For sale at Red-White-and-Blue Standard Service Stations and dealers' pumps throughout the State.

a slope in the river of only three inches in a mile, with the velocity of nine feet per second. There was a discharge of one million six hundred and ten thousand cubic feet per second. And all indications are that there will yet be more to take care of.

Spend Much Money
Millions of dollars have been spent in the building of levees and levees, but the government as yet has not the situation in hand. Willow and concrete mattresses line the channel of the river to keep it from undermining cotton gins and other buildings along the river and in order to maintain a transportation avenue for their products, and the situation is creating more complexities than ever. Engineers' feats have done the greatest work towards the solution of the problem it seems, and the most plausible solution at present, the government admits, is not the construction of unnatural carriers, but the reformation of the upper valley, which will cause snow and ice to melt slowly, and modify the amount of water coming into the Mississippi.

The government is doing all it can, but it needs some assistance from Mother Nature. I surely hope, in behalf of the men, women and children now in distress, that we have a dry April.

Disease Follows Floods
Disease is the scourge in such catastrophes as floods bring. Human lives are lost, men, women and children cry for food from tree-tops; houses, bridges, highways, fences are demolished. Fields are laid waste by erosion, villages are daubed with mud-stained waters. Desolate valleys, disease and sore

distress leave bankrupt farmers and business men in their wake. Imagine the filth that collects in a town during its period of existence. This is suddenly washed up and carried into contact with places where people must eat and sleep. They must find refuge, and filth galore is collected there, carried there by the flood.

At the present time Hickman fairly reeks with the odor of food and other antiseptics. It's a grave, serious problem that one can realize through experience.

Grange Scene Of Humorous Playette
A humorous play, "The Old Maid" was presented at the lecture hour at a meeting of Mt. Nebo grange Wednesday evening at the hall, Salem-Lisbon rd. The cast included these members:

Mrs. Harvey Shive, Mrs. Jacob Worman, Mrs. Nell Farmer, Samuel Crooks, Mrs. Frank Simons, Mrs. H. H. Noid, Mrs. William Crawford, Mrs. Salem Gromley. Musical selections formed a part of the program.

One application for membership was received. The next meeting will be on April 24.

Relief from Curse of Constipation

A Battle Creek physician says "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. J. H. Lease Drug Co., Floding Drug Store and Balger & French. Adv.

to be wiped out.
According to the sheriff at Newport, 21 persons were dead at Sefton, where the number of fatalities is expected to be the heaviest. The sheriff also said that 30 persons were taken to hospitals from Guich, Ark., another town struck by the twister, but the number of fatalities could not be learned.

Memphis, Tenn., April 11.—Unconfirmed reports received here from Swift, Ark., stated that possibly 40 persons were killed in a tornado which swept that section last night.

Many homes were reported demolished by the twister between Swift and Alicia, and while it was believed many persons were killed, no definite check up could be made due to the crippled condition of communication lines.

The twister bore out of the southwest and demolished many homes in which occupants had retired for the night. Several hamlets were completely razed, according to reports reaching here.

Any accurate check on the number killed and injured and the extent of property damage was impossible on account of crippled wire service over the district.

It is feared the death toll will swell as communication lines are restored.

CRABBE ACT

the part of the rural districts to defeat the Bender referendum.

If Bender carries his referendum for reappointment of the senators and representatives in the legislature, chances for the repeal of the state dry law would be more favorable than otherwise.

Cities are supposedly "wet," while the Ohio rural districts are reputed to be "dry."

Enactment of the Bender referendum would mean that the cities, or at least the populous counties of the state, would gain control of the state legislature. Defeat of the Bender referendum would mean that the rural districts would retain their supposed majority vote in the legislature.

Even though the referendum movements may amount to nothing it will be more than interesting to watch the bout between Rep. Sullivan and Senator Bender. Both are "firebrands" and the present tilt will be a renewal of the old feud, which culminated recently in Bender's opposition of Sullivan's "four cent" gas tax bill.

"IT'S SURELY GREAT THIS NEW KONJOLA" SAYS HAPPY LADY

Found In Three Bottles of New Medicine Relief She Never Expected To Enjoy

MRS. P. B. ETEL

"This new Konjola is surely great; I had no idea there could be such a medicine," said Mrs. P. B. Ertel, 31 Ernest Avenue, Dayton.
"I have taken only three bottles of Konjola and the results are greater than those I found in all the other medicines and treatments combined that I tried while seeking relief from stomach trouble and rheumatism. I was totally miserable. The lightest of housework was a drudgery. I suffered after every meal, no matter how little I ate. My rheumatic pains shot through my body like arrows."

Friends recommended Konjola, and I determined to give it a trial. What I thought was a trial treatment turned out to be all that I needed to rid me of the stomach trouble and the terrible rheumatism. I endorse Konjola with all my heart and soul, for it certainly was a boon and a blessing to me."

Konjola is sold in Salem at all J. E. Lease drug stores and by all the best druggists in all towns throughout this entire section.—Adv.

Files Divorce Action

Josephine Pugh, through her counsel G. Jay Clark of East Liverpool has filed an action for divorce in common pleas court against her husband Arthur Pugh of R. F. D. No. 1 Chester, W. Va. They were married at Youngstown April 27, 1927 and have one child, the final custody of which is sought by the plaintiff.

The petition relates that the defendant has been keeping company with other women and that both the municipal court at East Liverpool and the circuit court of Hancock county, at New Cumberland, W. Va., have issued orders against the defendant compelling to support his family, but with which orders the defendant has not fully complied.

Pugh is a farmer in Hancock county, W. Va., and hauls coal also for his brother at East Liverpool. Gross neglect of duty from Oct. 8, 1927 is charged.

Partition Action Filed

An action in partition has been filed in common pleas court by Anna Davidson, through her counsel Frank E. Grosshans of East Liverpool against G. J. Hillard and others. The property in issue is lot 3622 Pleasant Heights, East Liverpool.

REBELS

(Continued from Page One)
city held by a federal command 1,500 strong. It was reported that the rebels are preparing to dislodge the Federals at Naco, giving them a clear sweep of the border for 75 miles.

Here, then, with their backs to the American border, the rebels may decide to meet the advancing armies of Gen. Juan Andreu Almazan, now occupying Chihuahua City, and Secretary of War Calles, now occupying Mazatlan and Callacan, Sinaloa, some 400 miles south of Nogales. If defeated, retreat into the United States would afford an avenue of escape.

Whether American military authorities would permit the rebel army to enter the United States and be interned because a question tonight when word was received from Washington that the administration there has classified the rebels as bandits, refusing to recognize them as belligerents.

This, it is believed, will mean that rebel leaders fleeing into the United States will be arrested and held as ordinary criminals, to be turned over to the Mexican federal authorities.

OPERETTA READY IN COLUMBIANA

School Will Present Play
Friday and Saturday;
Indian Theme

Columbiana, April 11.—Final rehearsals are in progress this week for the Columbiana High school operetta, "Lewlawala" or "The Maid of Niagara," which will be given Friday and Saturday evenings in the school auditorium under the direction of Mrs. Julia Miller, director of school music.

Tickets are on sale with the school students and may be reserved at Clapp's drug store. In addition to the members of the cast, about 75 take part in the choruses, and every one in the production has a special costume, making the entertainment one of the

most elaborate ever attempted in Columbiana. The musical score is especially tuneful, being written by the celebrated exponent of Indian music, Charles Wakefield Cadman.

Chosen Accompanist
Miss Agnes Williams will serve as accompanist. The following compose the cast of characters: Wokomis, widower, chief of the Oniahgahrahs, Albert Thoman; Kiclowar, his son, Hubert Clapp; Lelawala, his daughter, Alice Lodge; Marpetopah, medicine man, Albert Houssholder; Hinstola, mother of Wokomis, Evelyn Wining; Napanee, sweetheart of Kiclowar, Lela Sewall; Wacostay and Wambale, Indian braves, William Arbuckle and Robert Maurer; Scwanas, Lelawala's lover, Phillip Patterson; Shungella, her rejected suitor, Arthur Steng; Wanyeca, a romantic widow, Virginia Shaffer; Major Wallace, commander of English forces, Frank Ehret; Mabel, his daughter, Mildred Cope; Capt. Elias her lover, Hubert Clapp; Eagle Eye, scout, William Keller; Clarinda Bend, admires the sergeant, Mildred

Hercules; Sgt. Bilks, who admires himself, Andrew Bretz; Lord Tattler, who admires witticisms, William Hoffman.

Pastor Speaks
Rev. L. A. Owen, pastor of the Plymouth Congregational church at Youngstown, was the speaker at the Monday evening meeting of the Columbiana Rotary Club. He gave a helpful and inspiring address on "The Minds of Men in a Changing World." Other visitors at the meeting were: Fred Rudolph of Erie, Pa.; William Du Rell, Youngstown; and Dr. R. E. Brungard and T. J. Sauters, Columbiana. The meeting of the club next week will be changed to Tuesday evening. Vice President Vance Stewart appointed Isaiah Mowen, Leo Holloway and Edgar Miller as a committee on arrangements for the annual banquet and ladies night to be held May 6.

About 125 were present at the social Monday evening in I. O. O. F. hall when the members of Pandora lodge, I. O. O. F. and their families. An interesting program had been

arranged, including splendid music by Mrs. Anthony White, pianist and Joe Barnard, piano; accordion player of Leetonla; and Harry Hetzel, violinist, of Columbiana. Other special numbers were a vocal solo by Miss Helen Crawford, accompanied by Mrs. W. F. Kabler; and a reading by Mrs. Edw. Gruber and daughters. A lunch was served at the close of the social period.

Call Important Meeting
President Dan Miller of the Columbiana Business Men's association has called a meeting of members for Friday night at the American Legion hall, at which time important business, including the election of officers, will be transacted. The annual banquet and inspection of Allen lodge, F. & A. M. will be held Monday evening, the banquet at 6:30 in the dining room of the Methodist church, served by the Ladies Guild, and the inspection in the Masonic hall, with Frank M. Justice of Youngstown as inspecting officer.

Mr. and Mrs. Bert Dickinson and

Mrs. John Bilger were Youngstown visitors Monday.

Richard Orr has been absent from his duties at Keller's store for several days on account of illness.

O. D. LaForce returned Tuesday to Detroit after a visit of several days with Mrs. LaForce and daughter, at the home of Mr. and Mrs. Harry Early.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

BUILD REMODEL REPAIR

People talk. They can't be expected to do otherwise. Our neighbors notice our personal appearance and gauge our prosperity on that basis. If we dress shabbily or carelessly, it would appear to be a sign of individual failure—we are not making good—same way with homes. If a house needs painting and if its approach is unsightly, neighbors gossip. On the other hand, a well-kept-up establishment echoes prosperity and civic pride.

Yes, there are two sides to this Clean Up, Paint Up and Fix Up question—and only two. Arguing against the idea is rather futile, isn't it? Look along your street or any other street in town and observe that side of the argument which has to do with shabby, run-down, unpainted and unrepainted houses. They look the part—they are eye-sores. On the other hand, the bright, painted, repaired houses are a credit to their owners and to the town.

WHAT'S BEST FOR A BAD STOMACH?

Nearly all stomach troubles—indigestion, sourness, gas, bloating and pain are caused by "too much acid" in the stomach.

Artificial digestants are not needed and may prove harmful. Neutralize the stomach acid, sweeten the stomach, and then pain, sourness and gas will stop and your food will digest properly and naturally.

From the nearest drug store get a little Bisurated Magnesia—either powder or tablets. Do not confuse with Liquid Citrate Magnesia or Milk Magnesia that are strongly laxative. Insist on Bisurated Magnesia, especially prepared for neutralizing acid stomach and promoting healthy natural digestion. For quick positive relief from Acid Stomach troubles.

Battle For Class Track Title On At Reilly Stadium Friday

Salem Athletes Under Inspection At Annual Intra-mural Struggle

The annual struggle for class supremacy among Salem High athletes will be staged Friday afternoon at Reilly Stadium. Tracksters of each of the four classes have been indulging in strenuous workouts for the past two weeks and a hotly contested battle for the title looms.

Out of this event will Coaches Wilbur Springer and J. M. Ruffner select their track squad for the coming season. The intra-class competition is considered only a secondary item to the practice the lads receive in regular competition, for each year this meet is considered to mean everything to the coaches who scan every event for varsity possibilities.

This year this is more true than ever. With veteran performers a rarity, Springer must put his work into shaping an aggregation from the mass of under-graduates who have reported daily for practice during the past ten days. A few of last year's lettermen are available but they are so scarce as to give the Red and Black's chances for another successful season an exceedingly dark aspect.

Baseball Tourney Off
Salem school too, was scheduled to appear on the inter-class card for this week. The first annual inter-class tournament was to be held Saturday at Reilly field, but this affair was postponed due to the condition of the diamond.

Enough material for three teams has been reporting regularly to Coach Floyd Stone at the school and they were all to be included at the inter-class meet for the selection of the first nine. The school field's diamond, however, the board of education has decided may not be in shape to play on until next year, and the team will have to do all its outdoor practicing at Centennial park.

The games on the regular schedule, to be played here, will also be played at the park, unless the school's field gets into better shape.

Track Big Worry
Track constitutes the main worry of the school's extra-curricular activities, however, due to the unusual situation coaches are facing in the lack of varsity material.

The seniors have the biggest number of varsity lads of last season but this fact doesn't serve to make them favorites to annex the title by any means. The juniors have a few comers who look as if they might give the older boys a stiff contest in several events, and the sophomores can't be considered under-

Homestead Clashes With Saxons Here

Sale mSaxons meet Homestead, Pa. Saxons, in a Penn-Ohio German league basketball game, at Memorial gym Saturday night.

The German league this season stretches almost into May, the Salem crew still having two games on the schedule. Both are at home.

Salem has little chance for the title which it won last year through a straight league victories. Homestead defeated the Quaker City tossers, at Homestead, and a real tussle looms when they meet Saturday in the struggle for second place in the circuit.

The Babe's End As Slugger Not Far Off, Walsh States

BY DAVIS J. WALSH

New York, April 11.—They are chanting the litany over an allegedly recumbent Mr. Ruth as the great man stumbles and fumbles his way over the land in pursuit of the spirit of his departed youth. Without the slightest attempt to dissemble or to mitigate, they say he is slightly fini, so to speak, and proceed to discourse learnedly about the half-stride "that is missing in his speed," the noticeable "shortening of his swing" and the inevitable difference "of the split second in his start."

To put the matter less garrulously, it may be imagined the observers suspect that the man who is has become the man who was. They add that none realizes this fact more poignantly than Mr. Ruth himself, which, if true, is really important. The man who has gone back usually discovers the fact well after his arrival at the destination in question.

However, it really is poor taste to take liberties with Mr. Ruth's future; also execrable tactics. For the gentleman has one thing in common with John Dempsey. The

only way one can assure himself of being wrong from early infancy is to pass an opinion on either of them. All one has to do for Mr. Ruth is to venture timidly that he is good and, forthwith, he becomes bad beyond all reason. Conversely, one drafts a powerful dissertation concerning evidences of his incipient decay, and—bloody, he makes of you one first-class bum.

Faltering Badly
Still, if you stick with the negative side of the Ruth argument, you have to win some time and maybe this is it. He did falter badly in the stretch last season, managing to save his countenance only by an orgy of hitting in the world series. Smart baseball men thought they saw over the season's play where he failed to come up with fly balls he should have caught on the point, if

any, of his interesting snout like a trained seal and also were pleased to believe that his speed on the bases was no more.

There is nothing remarkable about all of this. The man is 35 years old and the end can't be far away.

Perhaps it is here already, perhaps not. Mr. Ruth undoubtedly is striving, for he likes to astound the populace with his feats and the office records of the Yankee tour this spring prove that he has not been without encouragement in this respect. The Yanks have played to upward of 75,000 persons in 10 days on the road, something of an exhibition record, and Mr. Ruth has

been more than a mere number on the bill. He was and is the bill and, when the clumps weren't rioting to get near him, they were peeping through dining room doorways, listening to him at his soup.

COMMANDER SIX
Prices at the factory

THE NEW COMMANDER EIGHT COUPE FOR TWO—\$1495. COMMANDER SIX COUPE—\$1350. Ideal for business. Large luggage space under rear deck. Also available with rumble seat. Prices at the factory. Bumpers and spare tire extra.

THINK of it! An eight, a Studebaker—and a Commander—for \$1495. Worthy successor to the world-famous Commander which sped 25,000 miles in less than 23,000 minutes in heroic proof of its speed and staying power. Heir to the full fruits of Studebaker's engineering genius, which requires no further evidence than the fact that Studebaker today holds, undisputed, every official speed and endurance record for fully equipped stock cars.

Today's Commander is emphatically today's motor car. Its superb performance is matched by forward, youthful style, which beautifully interprets that performance. Lower—lower looking—and steeper at great speed—because of its costly double-drop frame. Restful riding, such as motor-ing never knew until Studebaker introduced the luxury of

ball bearing spring shackles, is still further enhanced by hydraulic shock absorbers.

Available either with straight-eight or with six-cylinder motor, The Commander is offered by Studebaker, Builder of Champions, as "the greatest motor car ever built and sold at its price." Your first ride will prove it.

"WOLF SONG"
Harvey Ferguson's novel, "Wolf Song," a romantic tale of pioneering days in the frontier of the old southwest in the 1840s proved to be thrilling fare for the audience which saw its moving picture version at the State Theater last night when it opened for a three days' run.

Paramount has made a moving, colorful, drama-filled thriller-romance from the material of the novel, and the three leading stars, Lupe Vélez, Gary Cooper and Louis Wolheim, perform splendidly in putting over the parts of a daughter of the Mexican Don, a young Kentucky adventurer-trapper and his passionate mountain-keeper companion. Gary comes to the mountain region of the old southwest with other trappers and after two hard years in the towering wilderness of the Sierras takes a holiday in the sleepy Mexican town of Toco. There he meets the fascinating little spitfire, Lupe, who wins his heart with her lovely singing and marvelous dancing. They are married, but not until Wolheim has loomed as a desperate rival for her favor.

After the wedding Gary gets the old longing for the mountains and leaves his young bride for the mountain country. After that there are numerous thrills as he relents

and tries to make his way back to her through the perils of the wilderness and the roving bands of hostile Indians. The ending is a happy one.

There is no dull moment in "Wolf Song." It will hold you enraptured until the very end.

"HEAD OF THE FAMILY"
"Head of the Family," a humorous story of matrimonial tangles, plays at the Royal tonight for the last time.

"REDSKIN"
Richard Dix's most famous cinematic production, "Redskin," the vivid tale of tribal traditions and college days is at the Grand for the final showing tonight.

Gladys Belmont, Tully Marshall, and others are seen in starring roles.

THE HOME KITCHEN

By Jeannette Young Norton

Ask a man why he has a favorite restaurant, and he most likely says "good coffee." Indeed, these unreasoning creatures go further. I have had the experience (and who hasn't?) of being taken to lunchrooms where the food was mediocre or worst, but the men seemed well pleased with the meal, and when the coffee came it was plain to be seen why. Apparently the wily restaurateurs are aware of the one item about which men are so particular. They know that even the busy business man will walk a mile for a good cup of coffee—and they develop experience in coffee-making, no matter what else has to be neglected.

What's the secret of a good cup of coffee?

It's all in the making. The kind of bean doesn't so much matter because most coffee sold in this country today is of fairly good quality. But there are coffee experts who go further, and say that you get a more delicious cup of coffee made properly out of a second-rate grade than a first-rate grade cooked in the wrong way.

The most satisfactory bean for general use is two parts of Java mixed with one part of so-called Mocha. Genuine Mocha is supposed to be the finest coffee in the world, but comparatively little is grown compared with the demand, and the small, dark-yellow, round bean which we know as Mocha is a mixture of Santos which is quite good. If you are very fussy about coffee, here is the way to get the most flavorful kind:

First, buy coffee that is packed immediately after roasting in air-tight containers. Or buy it, freshly roasted in the bean. Keep these beans in an air-tight can or jar.

Second, if you prefer the beans, grind them while the water boils, and grind only as much as is needed for immediate use. Coffee begins to lose its aroma after roasting, and after it is ground it evaporates even

more quickly. The sooner it is used after roasting and grinding, therefore, the finer its aroma and flavor. Third, use only immaculately clean vessels for cooking and serving and they should be kept hot. An enamel coffee pot is good, but an earthen one is better.

Boiling, percolating, filtering, are the several ways for preparing coffee, and this is largely a matter of preference, just as one prefers coffee strong or otherwise. The commonly used proportion is two level tablespoons of ground coffee per cup of water; if pulverized coffee is

used, one tablespoon per cup is allowed.

Boiled Coffee
Four tablespoons coffee, two cups boiling water.
Boil the coffee-pot with boiling water. Put in the coffee and boiling water and boil rapidly for three minutes, no longer. Add two tablespoons of cold water and let stand a minute or two before serving. Pour into warm cups.

Filtered Coffee
Half cup pulverized coffee, five cups boiling water.
The coffee-pot should be kept hot by rinsing in boiling water and then setting in a pan of hot water. Put the coffee in a filtering bag fitted into the coffee pot, and slowly pour the boiling water through. Serve immediately.

Percolated coffee is made in the same proportions as boiled coffee, but it takes twice as long to cook and some of the flavor is often thereby lost.

You, too, may have a clear skin

THOUSANDS of people have weak, impure blood—to this may be attributed pimples, boils, eczema, "run-down" systems, rheumatism and even more serious ailments.

Without plenty of rich, red blood, there could be no strong, sturdy, powerful men, or beautiful, healthy women.

When you get the number of your red-blood-cells back to normal, that sluggish, let-down feeling, loss of appetite, those pains usually called rheumatism, boils, pimples and skin troubles disappear. You get hungry again and sleep soundly; firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You are resistant to disease.

Throughout more than a hundred years S.S.S. has been a blessing to millions of people who have taken advantage of its wonderful medicinal properties. It is Nature's own blood tonic for improving the appetite, clearing

the body of so-called skin troubles, and building strength and resistance to disease.

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

S.S.S. increases the count of red-cells in the blood. Weak, impure blood is injurious to the system, lowering resistance to disease. Rich, red blood builds and sustains the body. S.S.S. helps Nature build rich, red blood. Good blood improves the processes by which the body is nourished, promotes constructive metabolism (healthy body building) and works against infection and disease. Take S.S.S. daily at meal-time. To get full benefit you must take it regularly and over a sufficient period of time. At all Drug Stores. Ask for the larger size. It is more economical.

DEFENDS GULFORD LAKE

Lisbon, April 9.

Editor, The Salem News: By reading the comments in the Buckeye State, we find the editor of the East Palestine paper, in condemning the Gulford Lake project, is not only wrong in his facts, but also in his attitude. The latter points out that a party of competent men have made the mistake, and are against the former claims he did not want to voice his opinion about a party of experienced men who favored it.

Now we like to know which one of the two parties is right, and the only way to do this, is to go ahead and finish the job. If those people wanted to holler, nag and condemn this project, why then did they not do enough of it before it was started, as by doing so they might have prevented it. No filling the pit, after the calf has drowned.

Editor Oliver said that every body who opposed the Emmmons scheme as he calls it, was denounced at the time. We know that there were and are people who were not in favor of the project, but we never heard it said as bad as he makes it out to be. He calls the expense for this project worthless, but that will have been seen, and the sportsmen of Buchanan county claim to have enough license fees to pay for the whole thing, without any taxpayer's money.

If there is anything wrong in the options and purchases of the land we are interested to know what it is, although we cannot see any connection with that and the work being done. I see in the paper that one of our legislators want \$20,000 to investigate a couple of depositions and to satisfy their curiosity. What for and who will it benefit? Not the taxpayer to be sure, and as the editor of the Buckeye seems to be so interested in taxpayer's money of late, we wish he would go to Columbus and try to get 20,000 bucks for us. Twenty thousand dollars put on the park project would make a nice showing at Guilford, we think.

As far as being enough water to fill the basin, we ought to have invited the editor to come to Guilford

about a month ago. If the outlet had been plugged up, the doggone thing would have been full right now. We also heard a state engineer claim that there could be no better place for a lake in the state of Ohio, but perhaps he did not know as much about those things as the editor does.

We agree with the editor that looking down and around from the Canton bridge, gives one a nice view, but we certainly hope that he is not trying to make mountain goats out of human beings and that is what one has to be, once one is down in the hole. The editor said some one said it would be a good place to fish (I mean the Gulford lake) meaning no doubt myself. Yes I did and say it again.

As for the farmers I thing most all of them, for miles around, do like to see this thing completed. That being done, we will have a better show of getting good roads from Salem Depot road to Guilford, from Lisbon to Guilford, through Neward, from Winona, past Woodside cemetery to Depot road. That is what this whole community wants and needs and by boosting the lake, we believe we will get the road, and if for nothing else we are going to keep on boosting.

Even if the people did not take advantage of the lake, we think Columbiana county sportsmen pay enough to bear the expense. We will hope all will be well in the end, but I do know that many people are getting disgusted with the editor's articles, and if my ears are doing their duty then I know that he will find it out on his subscriber's list before long. A. KUYPER

LEGAL NOTICE

Notice of location and opening of a New Township Road: To Firmus Gaunt, Bert F. Harris and all others whom it may concern. Notice is hereby given that a petition has been filed asking for the opening and establishment of a township road located in Butler Township and described as follows: Beginning at a point 1293 feet west of a stone located in the Depot Road on the line between Section 24 of Butler Township and Section 19 of Salem Township, and thence east along the quarter section line of Section 24, Butler Township, to the lands of Firmus Gaunt and Bert F. Harris a distance of 1293 feet to said stone in said Depot Road.

The time and place for filing objections to the opening of said road is 11 o'clock A. M., Eastern Standard Time, on Monday, April 22, 1929, at the office of the County Commissioners in Lisbon, Ohio. All objections to said improvement must be filed with the Commissioners before the time of hearing.

LEGAL NOTICE

Notice of closing township road.

To Bert F. Harris and all others interested:

Notice is hereby given that a petition to close a township road in Section 24 of Butler Township and section 19 in Salem Township, has been filed with the Board of County Commissioners of Columbiana County, Ohio. Said petition states that said road is a diagonal road through the lands of Bert F. Harris and that upon the opening of a new road on the 1/4 section line in Section 24 Butler Township the road will no longer be traveled. Said road is described as follows:

Beginning at a point 1293 feet west along the quarter section line of Section 24, Butler Township, from a stone in the Depot Road, on the line between Section 24 of Butler Township and Section 19 in Salem Township to the point where the present east and west road is now located turns southeast through the lands of Bert F. Harris, and running thence in a southeasterly direction through section 24 of Butler Township and Section 19 of Salem Township to a point in an east and west road in Section 19, 657 feet east of the Depot road, a distance in all of 1293 feet.

The time and place for hearing objections to the closing of said road is 11 o'clock A. M., Eastern Standard Time, on Monday, April 22 at the office of the County Commissioners at Lisbon, Ohio. All objections to said abandonment of said road must be filed with the Commissioners before the time of hearing.

Board of County Commissioners, of Columbiana County, Ohio. Attest: J. H. JOHNSON, Clerk. (Published in Salem News, April 4, and 11, 1929.)
